PREVENTS COSTLY SLIPS & FALLS DUE TO SLIPPERY SURFACES

TRUSTY STEP #1001 ANTI-SLIP FLOOR AND BATHTUB TREATMENT

For indoor or outdoor applications

Slips and falls on wet surfaces are a major problem for all types of commercial establishments and residences. Revolutionary TRUSTY STEP anti-slip treatment helps solve those costly problems. Unlike short-lived coatings, TRUSTY STEP is an invisible chemical treatment guaranteed to help prevent slipping for a minimum of three years with only one treatment! TRUSTY STEP has been thoroughly and exhaustively tested by a leading independent consulting chemist and authority on slip/fall accidents. TRUSTY STEP has been on the market for over 19 years.

BENEFITS:

- Reduces lawsuits
- Saves money on insurance
- Facilitates regulation compliance
- Eliminates unreliable rubber mats and messy stick-on tapes
- Will increase the static coefficient of friction to minimum of 0.6 or better (even when wet) – Guaranteed for 3 years

STATISTICS:

- Over 25,000 slip/fall injuries requiring hospitalization occur daily in North America
- Slip/fall accidents account for workers' compensation claims totaling over \$200 million per year
- Total costs related to slip/fall injuries are a \$100 billion per year problem

IDEAL FOR:

CERAMIC TILE
QUARRY TILE
SPANISH TILE
TERRAZZO

CONCRETE
GLAZED BRICK
MARBLE

OTHER *TRUSTY STEP* ANTI-SLIP SOLUTIONS

TRUSTY STEP #4001 SLIP-RESISTANT CLEANER/DEGREASER

- Ideal for greasy or oily floors where buffing is not required. This concentrated; all purpose cleaner/degreaser is designed for daily use as part of Trusty-Step's Anti-Slip Floor Care Program. Enhances the slip-resistance of any floor. So easy - should be called "**Floor washing for dummies**"
- **For use on:** Quarry, ceramic and porcelain tile, cement, metal, etc.
- **Typical Applications:** Commercial kitchens, nursing homes, factories, warehouses, etc.

TRUSTY STEP #4002 Deep Cleaner/Degreaser

- Ideal for heavily soiled and greasy areas where maximum cleaning power is needed.
- **For use on:** All types of surfaces.
- **Typical Applications:** Commercial kitchens, factories, warehouses, garages, etc.

TRUSTY STEP #3001 Vinyl Slip-Resistant Treatment

- Ideal for moderately dirty floors where buffing and a high shine are desired.
- Cleans and helps restore the gloss of virtually any coating, on any type of floor surface. Most important, however, is the ability to assure a positive coefficient of friction and enhance the slip-resistant properties of any surface it is applied to.
- **For use on:** Vinyl, linoleum, marble, terrazzo, tile and sealed wood.
- **Typical Applications:** Supermarkets, hospitals, nursing homes, etc.

TRUSTY STEP #1222 Non-Slip Acrylic Coating

- Sparkling clear water based, one part acrylic coating with crystal clear, polycarbonate aggregate. It coats, seals and creates a slip-resistant surface.
- Assures a positive coefficient of friction on any surface it is applied to, while enhancing the beauty of the treated surface.
- **For use on:** Vinyl, Metal, Glass, Fiberglass, Tile, Marble, Granite, Terrazzo, and Concrete.
- **Typical Applications:** Platforms, ramps, walkways, decks, garages, factories, warehouses, store & office entrances, schools, machine shops, marinas, etc.

TRUSTY STEP #1333 Non-Slip Clear Wood Coating

- Water based, one part urethane coating with crystal clear, polycarbonate aggregate. It is specially designed for wood floors; it coats, seals and creates a slip-resistant surface.
- Assures a positive coefficient of friction while enhancing the beauty of the wood floor.
- **For use on:** Wood
- **Typical Applications:** Steps, ramps, gyms, entrance, dining area, ball room etc.

Most hard floor surfaces are dangerously slippery when wet and society has come to accept that caution is the only defense when crossing a wet pool deck or tiled entrance lobby or even a hardwood floor. In addition, slips & falls in bathtubs and on bathroom floors account for many serious injuries in the home and in commercial establishments. Factoring in the increasing proportion of the elderly in society, the stage is set for dramatic increases in slip/fall accidents.

With that growth in accident rates will come increases in insurance premiums, workers compensation claims, lawsuits and lost productivity. Mere caution is not the solution for accident avoidance in slippery floor environments.

The solution is the TRUSTY STEP treatment of potentially hazardous floor surfaces. Let TRUSTY STEP'S nineteen plus years of experience, combined with continuing research and development, work for you. For a complimentary assessment and demonstration please contact us.
